Computer Science Engineering (CSE)
National University

2014-2018

PROFILE

linkedin.com/in/khokanuzzaman/

Mobile app developer with **6+** years of experience, expert in **Flutter**, **React Native** and **Jetpack**. Led Jotno apps' migration from React Native to Flutter, improving performance. Implemented telemedicine, scheduling, and video call features. Delivers optimized code, collaborates cross-functionally, and aligns solutions with business goals. Skilled in leveraging technology to enhance app performance and user engagement.

WORK EXPERIENCE   (6 years 7months +)

Software Engineer - I

Square Health Ltd   2023-Present

Square Health, a part of Square Group, one of the largest conglomerates in Bangladesh, offers a comprehensive healthcare platform. As a Software Engineer, I focus on Flutter and React Native development, leading mobile app initiatives to deliver healthcare solutions.

Key Responsibilities: ➤ Developing mobile app development for Jotno and other healthcare platforms.
➤ Collaborating on business requirement analysis, app design, and development.
➤ Publishing apps and managing the Google Play Console.
➤ Actively involved in the recruitment process for technical roles.
➤ Working with **Flutter, React Native, Android Jetpack, and API integration**s.

Junior Software Engineer

Square Health Ltd   2019-2023

Focused on Android, iOS, React Native, and Flutter development, I played a key role in building mobile applications and collaborating with stakeholders.

Key Responsibilities:
➤ Developed and maintained mobile applications for healthcare services.
➤ Analyzed business requirements and worked on mobile development projects.
➤ Published apps and managed the Google Play Console.
➤ Participated in recruitment and mentoring new team members.
➤ Worked extensively with React Native, Axios, Redux Thunk, TypeScript, and REST APIs.
